

AKASH A P

FINANCIAL & COMMERCIAL DATA ANALYST

+91 7510956964 | akashshajiap2003@gmail.com | linkedin.com/in/akash-a-p-934889315 | github.com/Akashshajiap

PROFESSIONAL SUMMARY

Commercially minded Data and Financial Analyst with 1+ year of experience in financial reporting, revenue analysis, and business process improvement, complemented by a Data Analytics internship using Excel, SQL, Python, Power BI, and Tableau. Experienced in analysing business data, identifying trends, building KPI dashboards, and transforming complex datasets into actionable insights for stakeholders. Skilled in reporting automation, cross-functional collaboration, and AI-assisted analytics, with a strong interest in commercial strategy, pricing analysis, product performance, and revenue growth.

CORE SKILLS

Analytical Tools: Microsoft Excel (Advanced), Power BI, Tableau, Statistics, EDA

Data & Programming: SQL (MySQL, PostgreSQL), Python, R, Data Cleaning, KPI Reporting, Dashboard Design

Financial Analysis & Accounting: Financial Reporting, Modelling, Budgeting Support, AP/AR, GST Compliance

Areas of Interest: Pricing Analysis, Customer Segmentation, Product Performance Analytics, Revenue Growth Modeling

Other Tools: Git, GitHub Copilot, ChatGPT, Django, REST APIs

PROFESSIONAL EXPERIENCE

Junior Accountant

December 2024 – March 2026

Western Trade Links, Kannur, Kerala, India

- Managed client account billing and vendor invoicing, ensuring pricing and billing accuracy across all customer invoices, reducing payment delays by 18% by reconciling invoices and vendor/client accounts on a consistent monthly cycle.
- Cut reconciliation discrepancies by 22% by performing monthly bank reconciliations, by cross-validating transaction records across multiple accounts before reporting.
- Improved on-time delivery of financial reports to 100% by preparing monthly Balance Sheet and Profit & Loss statements, by standardizing data consolidation into a repeatable reporting template.
- Maintained 100% statutory compliance across GST filings and payroll cycles by managing tax documentation and payment schedules, by tracking regulatory deadlines proactively.
- Reduced invoice processing turnaround by 25% by preparing and issuing quotations, invoices, and vouchers, by standardizing daily transaction workflows.
- Achieved zero material audit findings across audit cycles by supporting the annual audit process, by resolving discrepancies ahead of formal review.

Data Analytics Intern

April 2026 – Present

QIS Academy

- Analyzed financial and operational data to surface revenue and cost trends, supporting management visibility into business performance — the same trend-detection approach used in product and market performance analysis. in Excel, SQL, and Python, by applying trend and anomaly-detection techniques to surface revenue and cost patterns.
- Improved stakeholder reporting turnaround by 45% by building interactive Power BI and Tableau KPI dashboards, by replacing static spreadsheet reports with live, self-service dashboards.
- Reduced manual reporting effort by approximately 40% by automating data cleaning and transformation pipelines in Python, by replacing manual spreadsheet processes with reusable scripts.
- Improved forecasting reliability by 18% by performing statistical analysis and exploratory data analysis (EDA) across segmented business datasets, by identifying trends and anomalies ahead of reporting cycles.

PROJECTS

Smart Health Prediction System

- Designed and developed a predictive analytics system using Decision Tree, Naïve Bayes, and Neural Network models to assess risk with measurable accuracy improvement.
- Applied data mining and pattern detection techniques directly transferable to financial risk modelling and anomaly detection.
- Built an end-to-end data pipeline (ingestion, cleaning, modelling, and results display) via a Django web interface.

EDUCATION

Bachelor of Computer Applications (BCA)

Graduated: 2024

Kannur University

CERTIFICATIONS & COURSES

- Microsoft Power BI (PL-300) – In Progress
- Computerized Financial Accounting, 2025 – 2026
